MUBARAK KIM INDEPENDENT, MIRRABOOKA WA

"Never allow Political Parties to dictate your God Given Rights"

I acknowledge the traditional owners of the land on which we all share. I pay my full respect to their culture and to their elders both past and present. I personally recognise them in our Constitution because that is the right thing to do if we truly believe in Justice.

Also recognise the Independent State of Ogaden and Palestine with the hope that long lasting peace will prevail in the region. Unity and peace in Somalia and South Sudan is a must. I will also make sure that oromo's are being treated with dignity and respect. I stand for Common sense to empower the community so that they have a say in their own affairs. Determine for their own destiny, not to be dictated by political parties. Never allow to be taken for Granted.

Every pensioner on Centerlink must be paid \$1,000 fortnightly that includes the Elderly, Retirees, Disabled, Students, Sick people and the rest for the better future.

I stand for unity, Change of Constitution, Bill of rights, Job creation, Australian Republic, Eid Public Holiday, Teachers pay rise, Nurses, More money to Hospitals, Schools, Housing, Nursing homes, Aged Care, Women's Rights, Baby Bonus \$10,000, Environment, Refugees, \$2,000 for Veterans Monthly in addition to the current entitlement and family values. I also stand for term limit.

If elected, I will legislate to abolish the preferences system. Our lives and democracy is not for sale. I will abolish Supa tax and hold the government accountable to review spending on Defence and Members of parliament retirement entitlement and travel expenses. Rest assured that I will never give up pushing for things to materialise.

Independent

I would like to thank each and every one in your respected communities for the support you have been giving me during my previous elections. I want all of you to know that, every successful person in Business has ever fallen down. Never give up on your dreams. Failure is one step towards success. That's the reason why I have never gave up fighting for the justice of your cause. Please never give up supporting me towards victory.

"Stand up firm to earn and protect your rights based on common sense." Please give me the opportunity and a chance to represent you for happiness. In addition what I will do if elected is to make sure that mechanism is put in place for a state Anti - **Corruption court** and to abolish the **privatisation of State properties**.

Despite to the fact that I have been warning you several times about these major political parties, it is very sad indeed our elderly, sick and jobless their benefits to be reduced and stopped all together. A culture of treating our people like slaves in this country must stop with immediate effect.

A Government which doesn't treat pensioners with dignity and respect don't deserve your votes. Dont ever allow these selfish, greed and bullies to dictate your God given rights. A vote to such people is a very big loss to your future and children's success.

Please vote for me as your genuine independent leader who will bring back happiness to the community and success for the better future.

I will also legislate to **remove people from prison** and abolish a system of **foster care** to protect children and family values. I will make sure that the funds are provided to the College which has excellent multiculturalism to ease sensitise families and prisoners so that they live in harmony with their beloved ones. In addition, to train them with better skills into job opportunities at the same time to be self-employed by starting their own businesses funded by the Government.

Bad leaders must learn how to treat people with dignity and respect. The use of police and Judiciary at each and every family matters is not a solution. Politicising family matters must be condemn at all level. Nobody should have a right in pocketing from fellow human beings. Seperating families because of money is wrong, we must embrace unity and family values. Those who mistreat and kill people in prisons must be held accountable. I will always discuss the funding model of private schools with the owners and the community how the government should give them more financial help. I am very determined to change our parliamentary attitude for the better in the best interest of the community. Unemployment is on the rise and our people are struggling to pay utility bills. A situation caused by bad leaders. I am going to shake parliament like a mango tree. **"Change is a must"**.

It is now time for new revolution to reclaim our fundamental human basic rights from bad Major Political parties. Those who have stayed in politics for so long must go, and those with other commitments should be contented with what they have and leave us alone to start the journey of enjoying the fruits of equal opportunity and a fair go for all. The doors of opportunity must be left open to those who don't have any, if these people truly mean what they say, creating jobs for all and generous prosperity.

We must all accept that being selfish and greed is very dangerous to our nation's economy. Those who needs help must be helped. If elected, I will give you the happiness you have ever wished for.

You have my full respect

Mubarak Kim
