A HUMBLE REQUEST TO THE PUBLIC, PLEASE HELP.

RE: PUBLIC APPEAL FOR FINANCIAL SUPPORT OF \$500,000 TO RE-START MY BUSINESS OF ORGANIC FOOD PRODUCTS.

First and foremost, I would like to thank those who have been there for me, particularly the “Females” in your respected capacities fighting to protect me from those who don’t wish me well. I have nothing to give you except asking the Almighty God our creator to reward you the most in this world.

You have all witnessed the agony I am going through despite the fact that I have been fighting for the justice of your cause; a situation caused by bad leaders based on bias, jealousy and discrimination against me. I am very frustrated by inept bureaucracy and bias from our banking system.

Therefore, I am humbly seeking your urgent contribution of \$500,000 as mentioned above to resume my organic fresh food products business which was founded by myself back in 2008 in the best interest of job creation and a chance to contribute towards our nation’s economy.

I have been let down by our politicians, Banks and the British Monarchy blocking all my opportunities when trying very hard for a better future. I always hear that Australians are the most generous people in the whole world. Please help me so that my dreams of success become a reality. I believe that with community power, everything is possible.

Our politicians hate me so much simply because of my bravery and strong advocacy towards the recognition of the indigenous people in our constitution, the Palestinian community, women empowerment for a fair go for all, and also the

courageous efforts of fighting for our beloved veterans so that they can live happily and to die with dignity.

Due to my political advocacy, you have benefited a lot and your success makes me feel very proud, though the situation is still left wanting.

You should have never allowed the agony I am going through on your watch. A friend in need is a friend indeed. Be informed that starting my business won't deter me from the Uber Eat Partnership. Services will continue as additional income.

Now it's your turn to make sure that those who may want to sabotage my goals are being dealt with amicably because their attitudes are not of civilized people. Please lobby and contribute the little you have as a token of appreciation so that my dreams become a reality.

I kindly appeal to the public to rescue me from this unnecessary embarrassment. Your contribution will be a game changer for my life and a better future. Rest assured that you will be notified every week about what we have collected. Please donate to this account below:-
